Wayground homepage

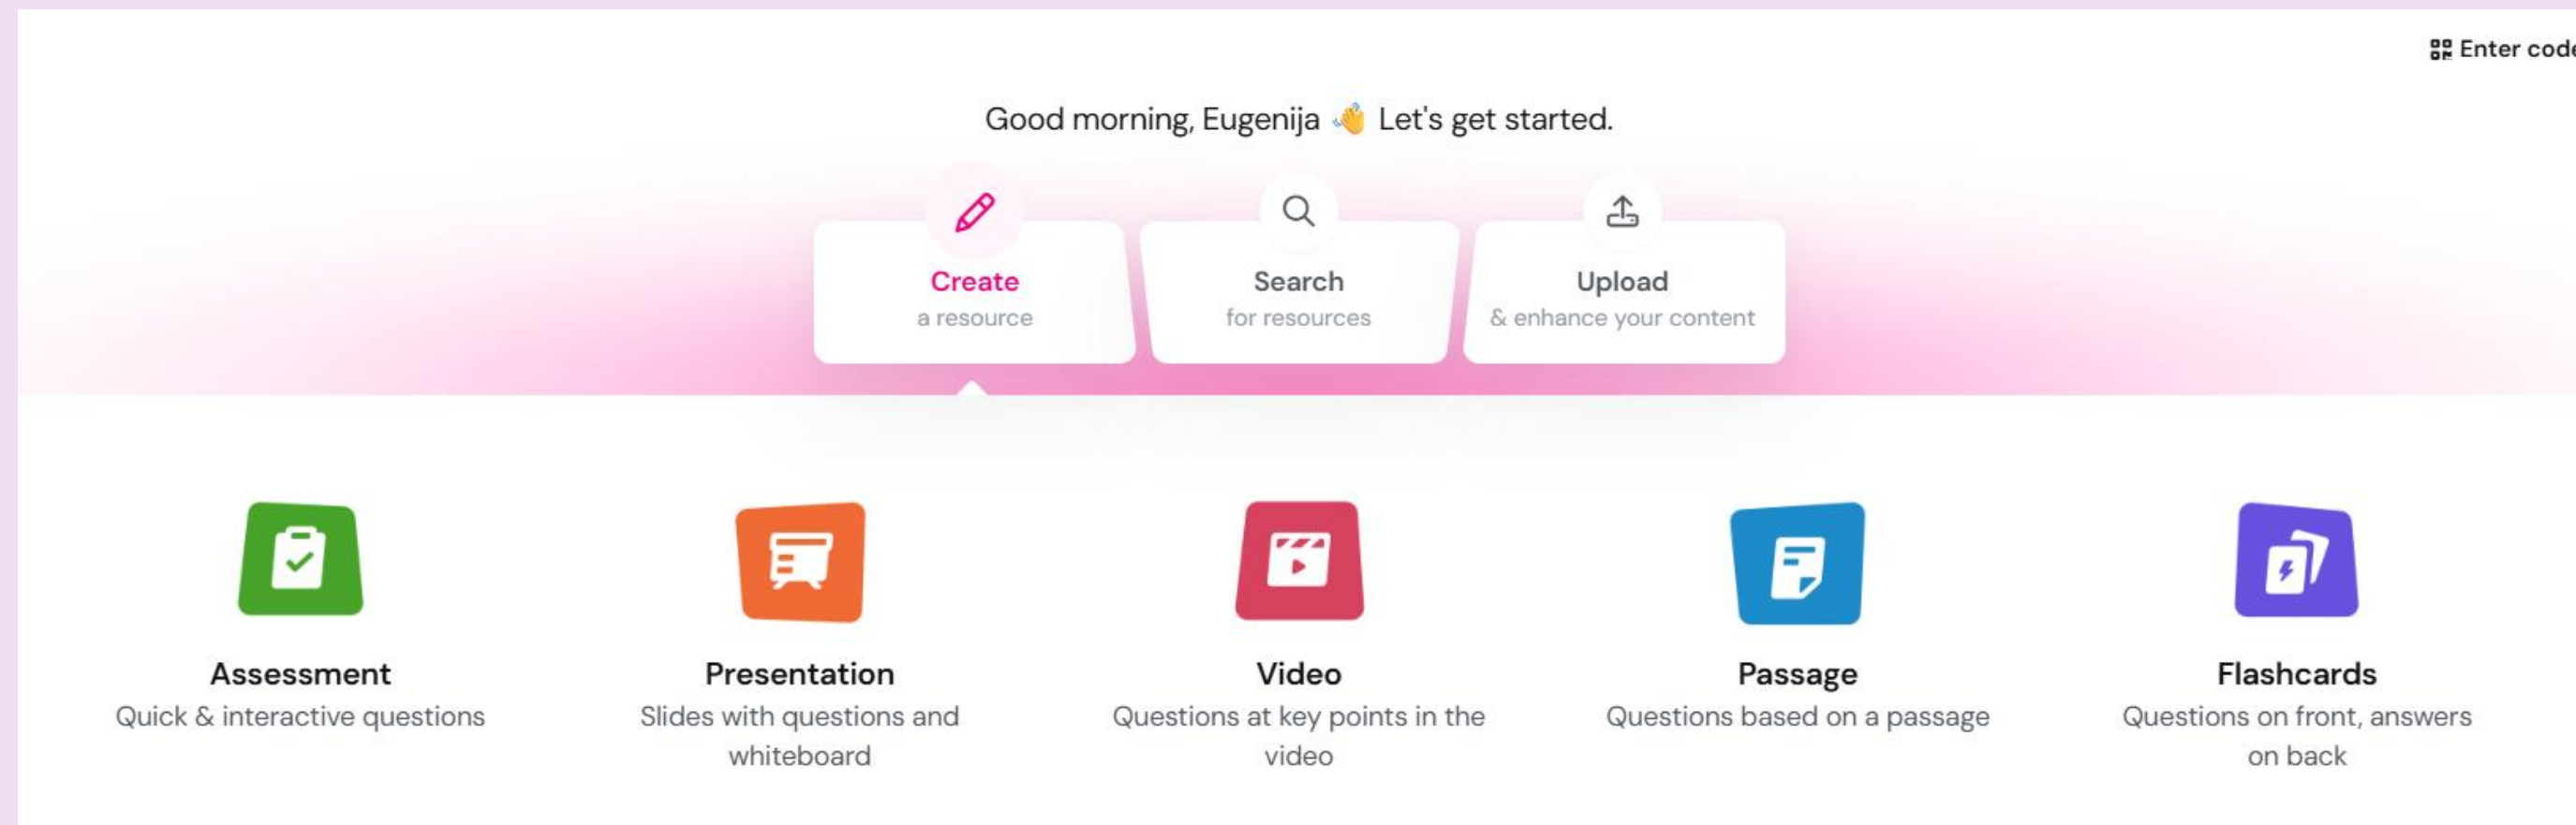

It works on the web and on mobile devices.

Teachers can use it live in class or assign it for independent practice.

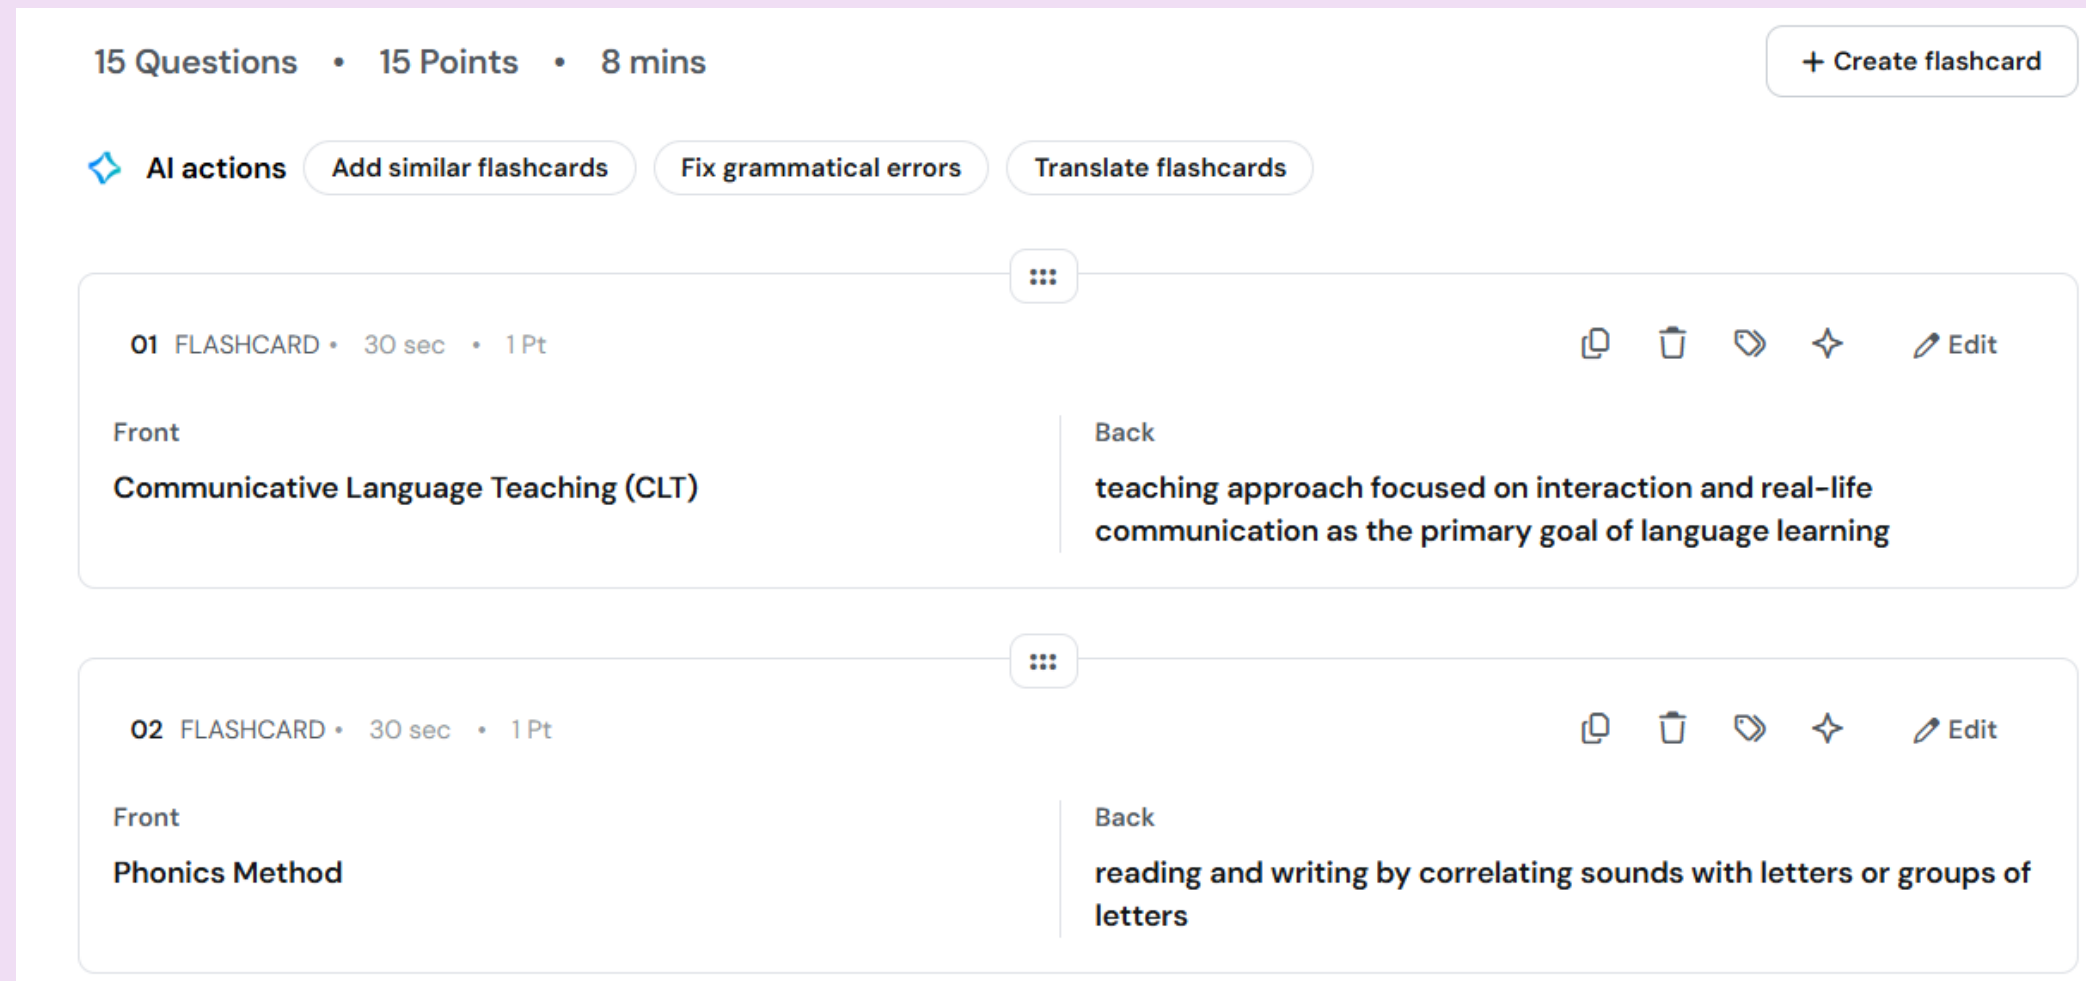

Features and Functionality

Teachers can choose or create English activities by level or topic and set the pace and time limits.

Wayground platform

Tasks are short and easy to repeat. The platform uses game-like features such as points, timers, and progress results to motivate learners and encourage regular practice.

The screenshot displays the Wayground platform interface. At the top, it shows '15 Questions • 15 Points • 8 mins' and a '+ Create flashcard' button. Below this, there are 'AI actions' buttons: 'Add similar flashcards', 'Fix grammatical errors', and 'Translate flashcards'. The main content area shows two flashcards, each with a 'Front' and 'Back' side. The first flashcard (01) is titled '01 FLASHCARD • 30 sec • 1 Pt' and contains the text 'Communicative Language Teaching (CLT)' on the front and 'teaching approach focused on interaction and real-life communication as the primary goal of language learning' on the back. The second flashcard (02) is titled '02 FLASHCARD • 30 sec • 1 Pt' and contains the text 'Phonics Method' on the front and 'reading and writing by correlating sounds with letters or groups of letters' on the back. Each flashcard has a menu icon (three dots) and a set of action icons (copy, delete, share, star, edit).

Feedback and Learning Support

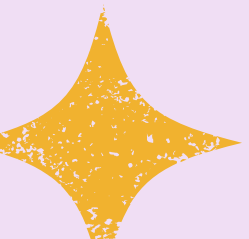

Wayground shows instant results and highlights typical mistakes. This helps teachers reteach and target weaknesses.

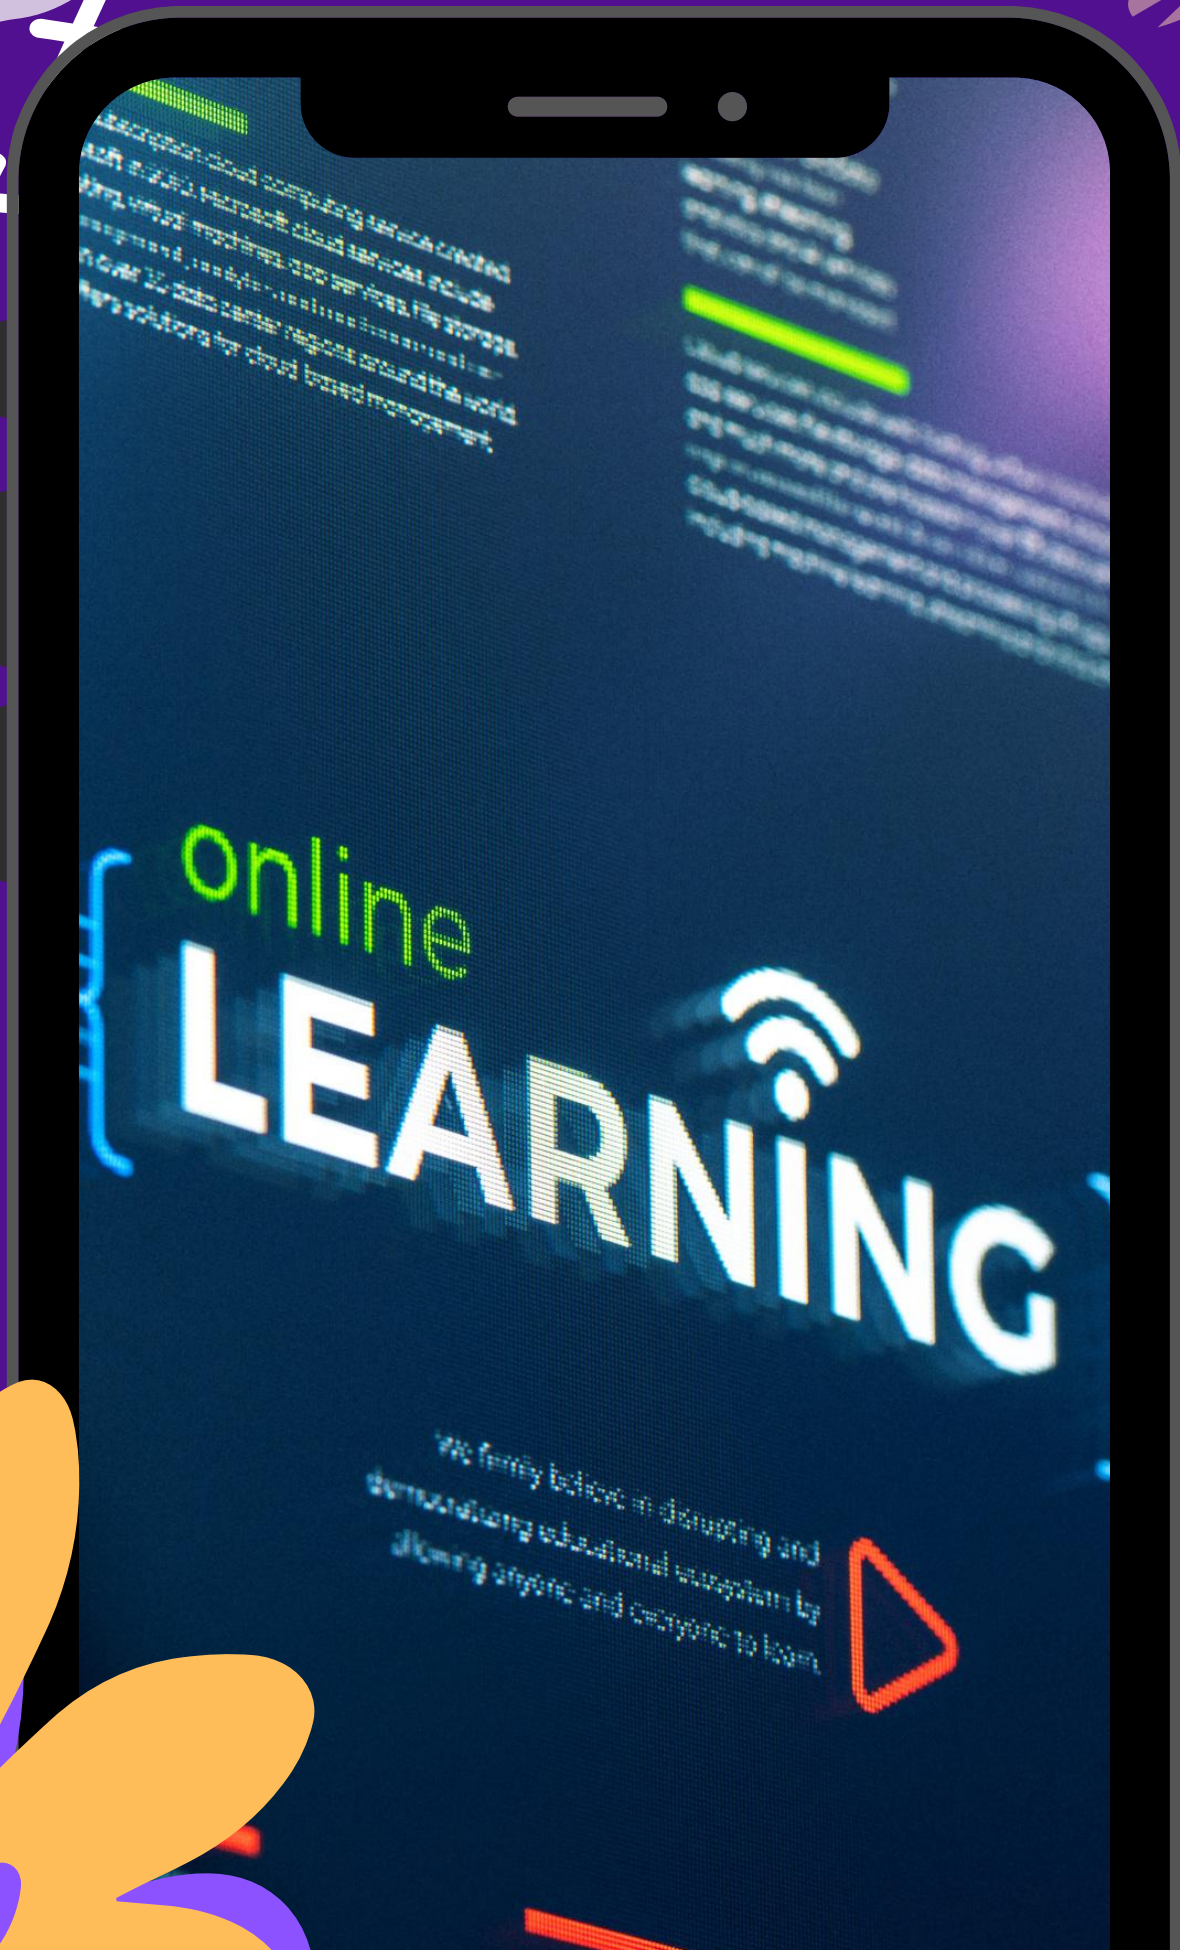

Learners practice vocabulary, grammar, reading, and listening with immediate feedback, which can boost confidence and reduce anxiety.

Use in TEFL Context

In TEFL, Wayground is used as a supplementary tool for quick practice, comprehension checks, and revision between classes, especially with adult learners.
