MEMRISE

memrise.com

Introduction

Memrise is a gamified language-learning platform that supports learning English as a Foreign Language through vocabulary and phrase practice using spaced repetition.

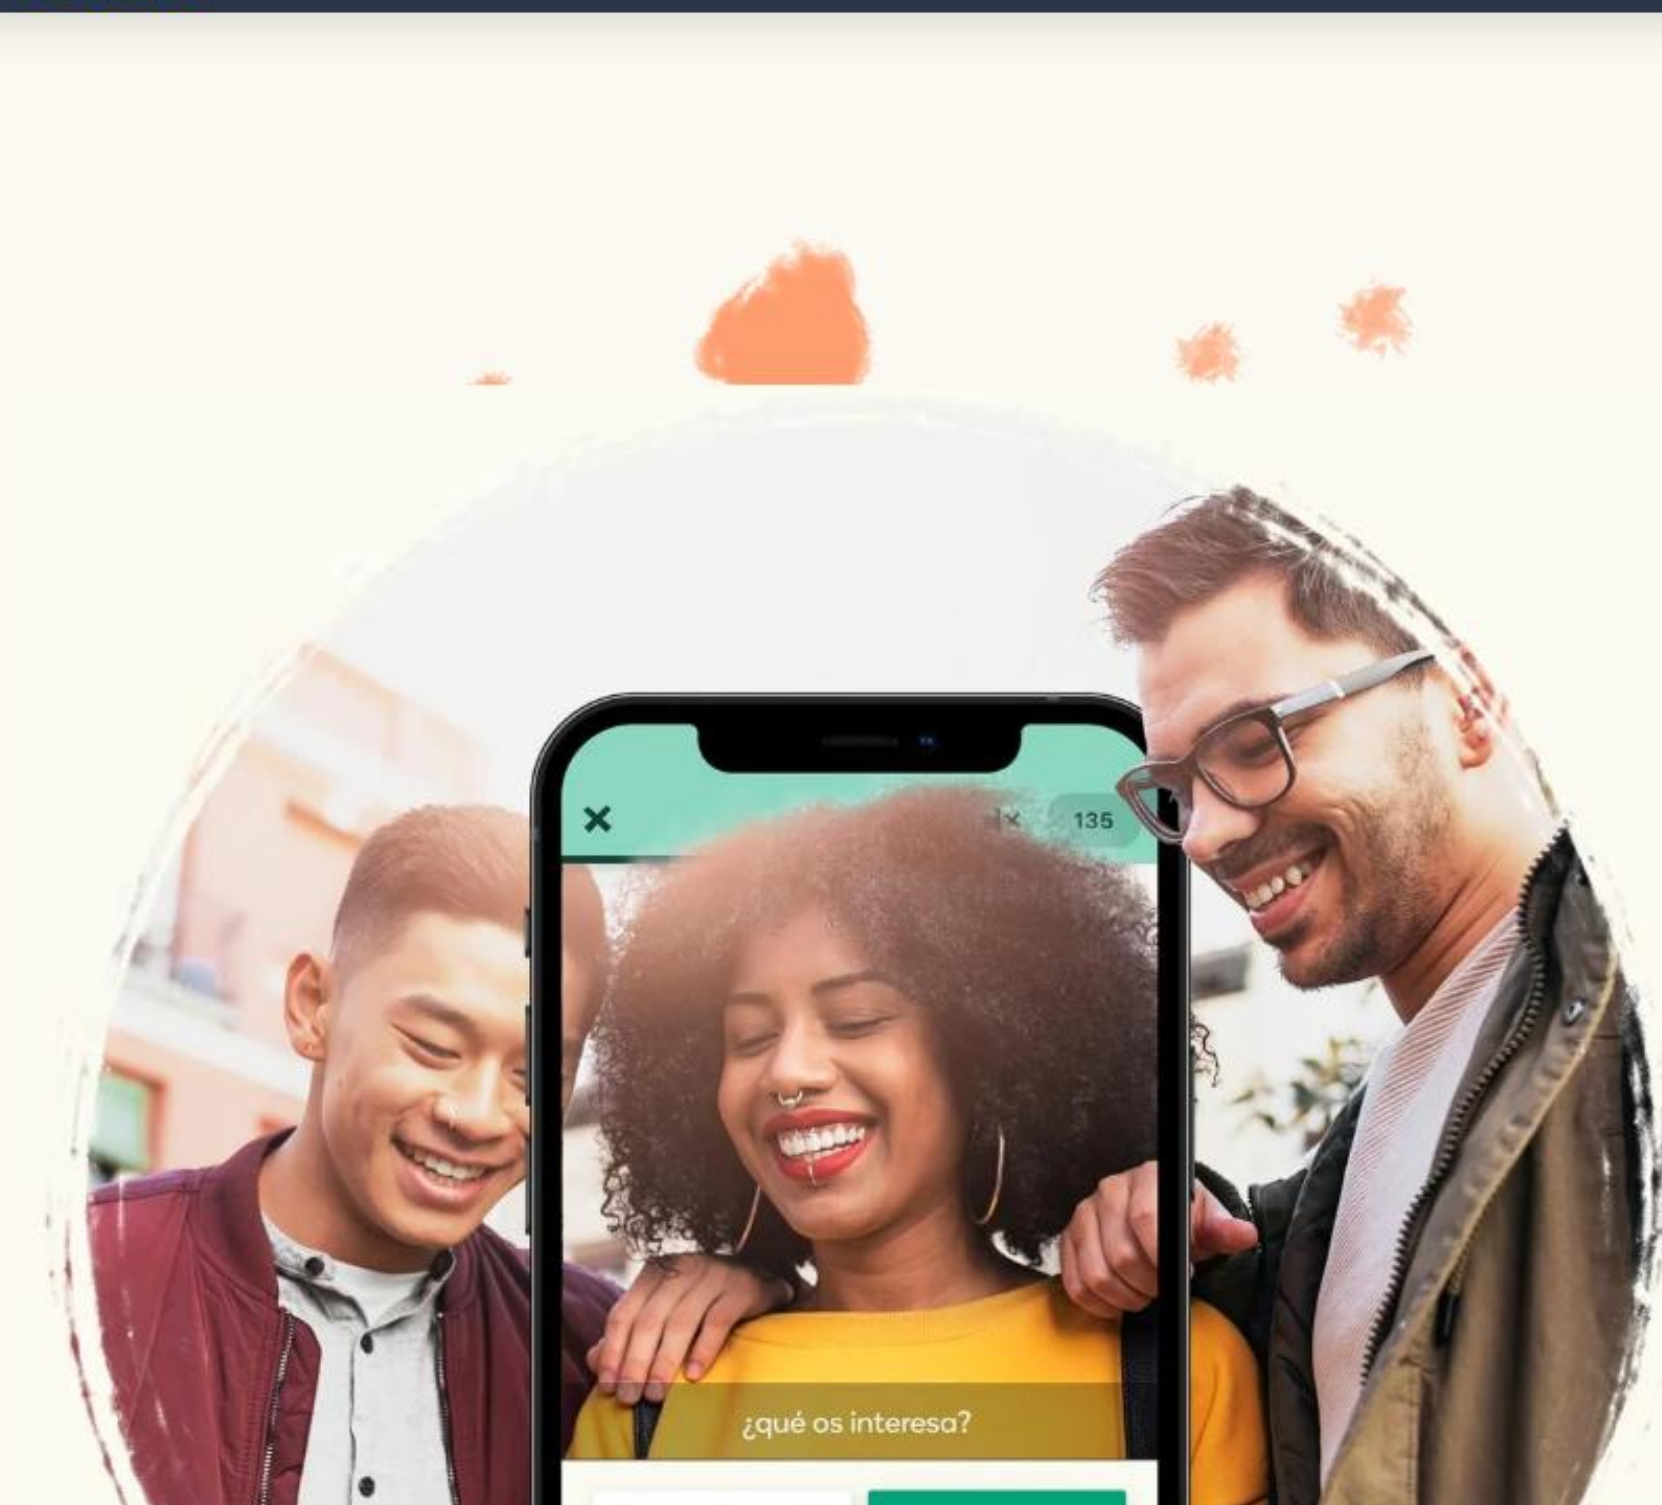

Speak a new language with real-world confidence.

Order that coffee, laugh at the joke, and feel at home from your very first session.

Memrise teaches you the language people *actually* use. Don't just say the words – sound like you belong.

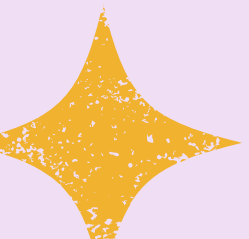

[Get Started](#)

NEW! If your course doesn't have the vocab you need, someone else already made it.

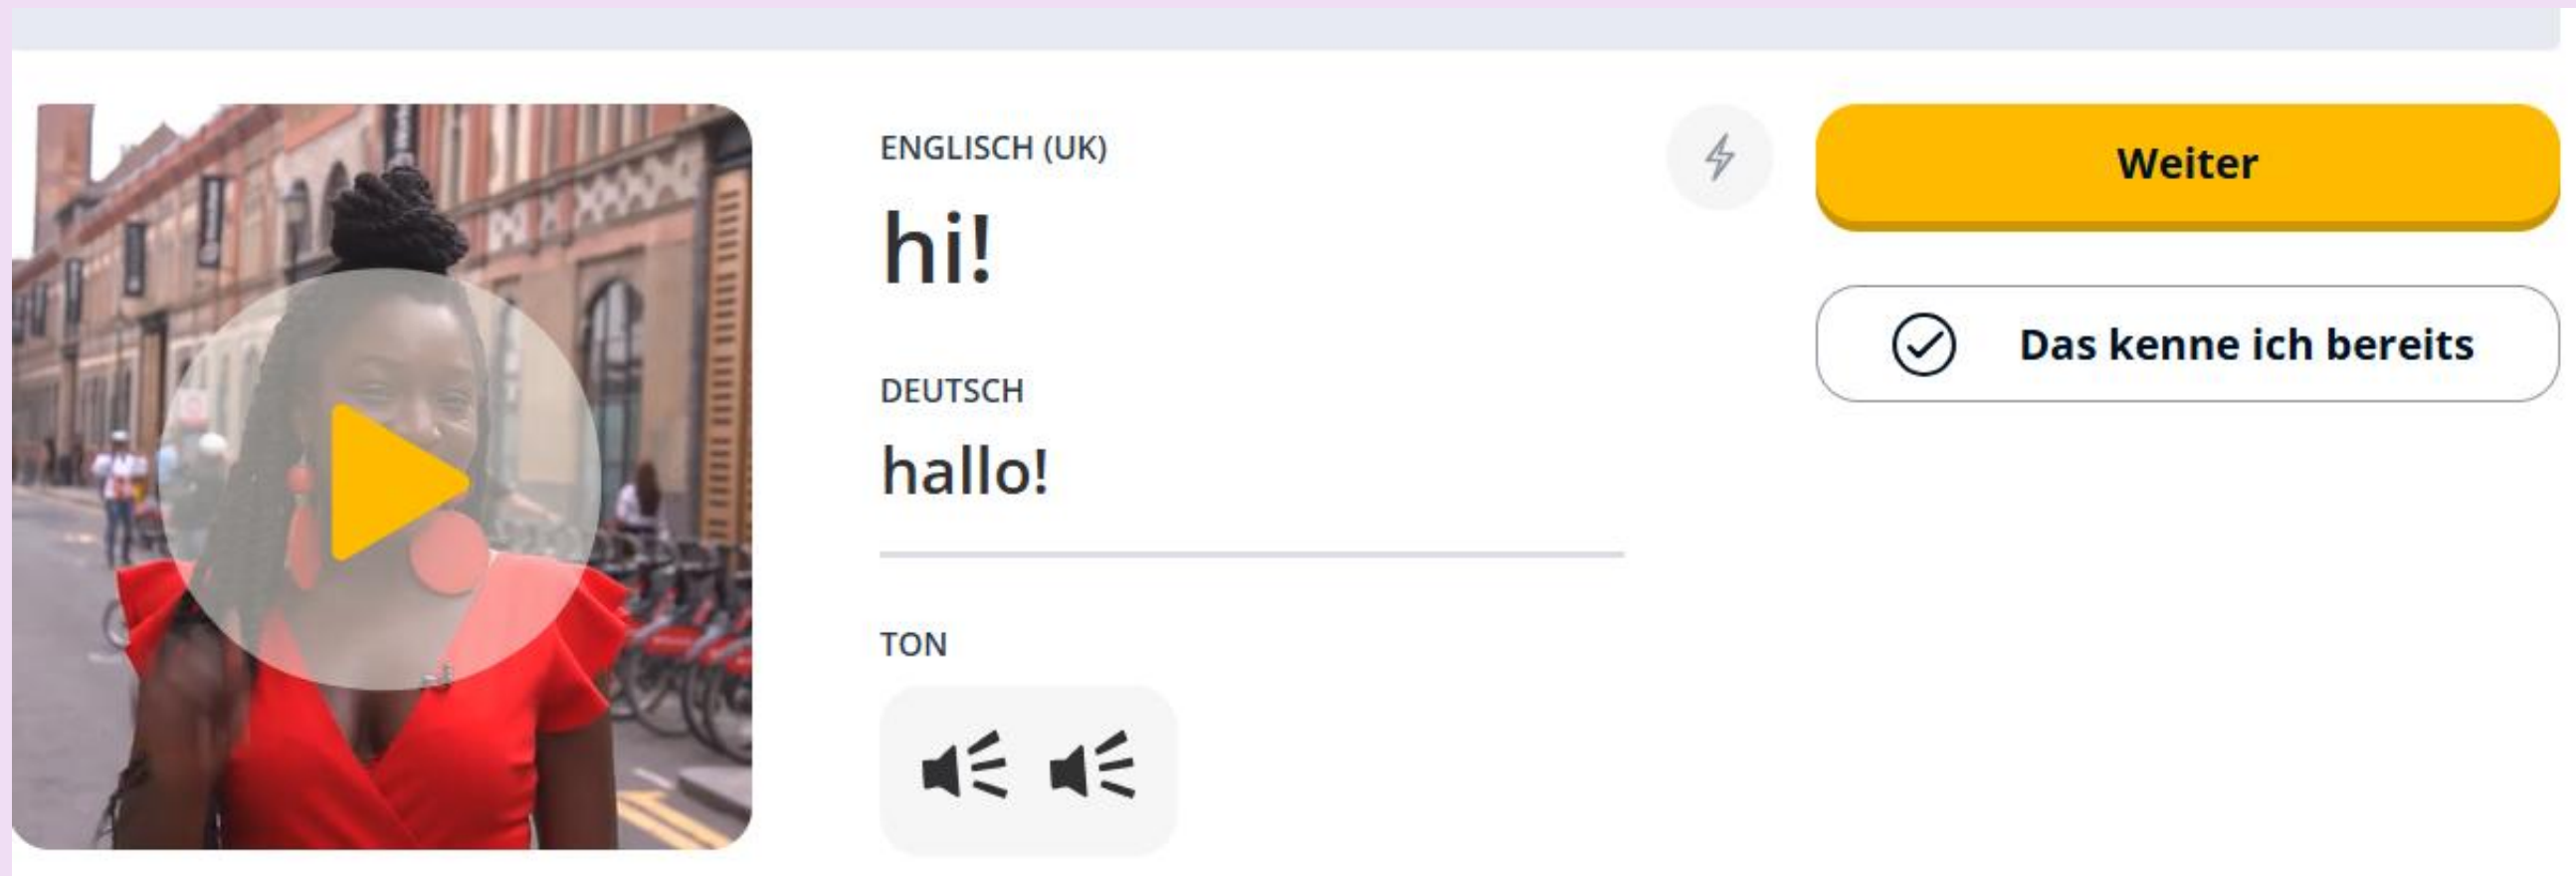

Memrise learning environment

Memrise is available on the web and mobile devices. Learners practise independently through short, guided activities that are easy to follow and use.

Getting started with Memrise

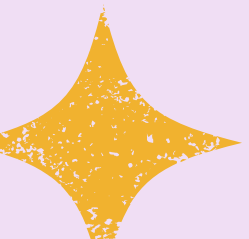

Learners choose an English course by level or topic and set their learning pace. Lessons are designed for short, regular study sessions.

The screenshot displays the Memrise app interface for a lesson. On the left, there is a video player showing a woman in a red top with a yellow play button overlay. To the right of the video, the text 'ENGLISCH (UK)' is followed by 'hi!'. Below this, 'DEUTSCH' is followed by 'hallo!'. At the bottom left, there are two speaker icons labeled 'TON'. On the right side, there are two buttons: a yellow button labeled 'Weiter' and a white button with a checkmark icon labeled 'Das kenne ich bereits'.

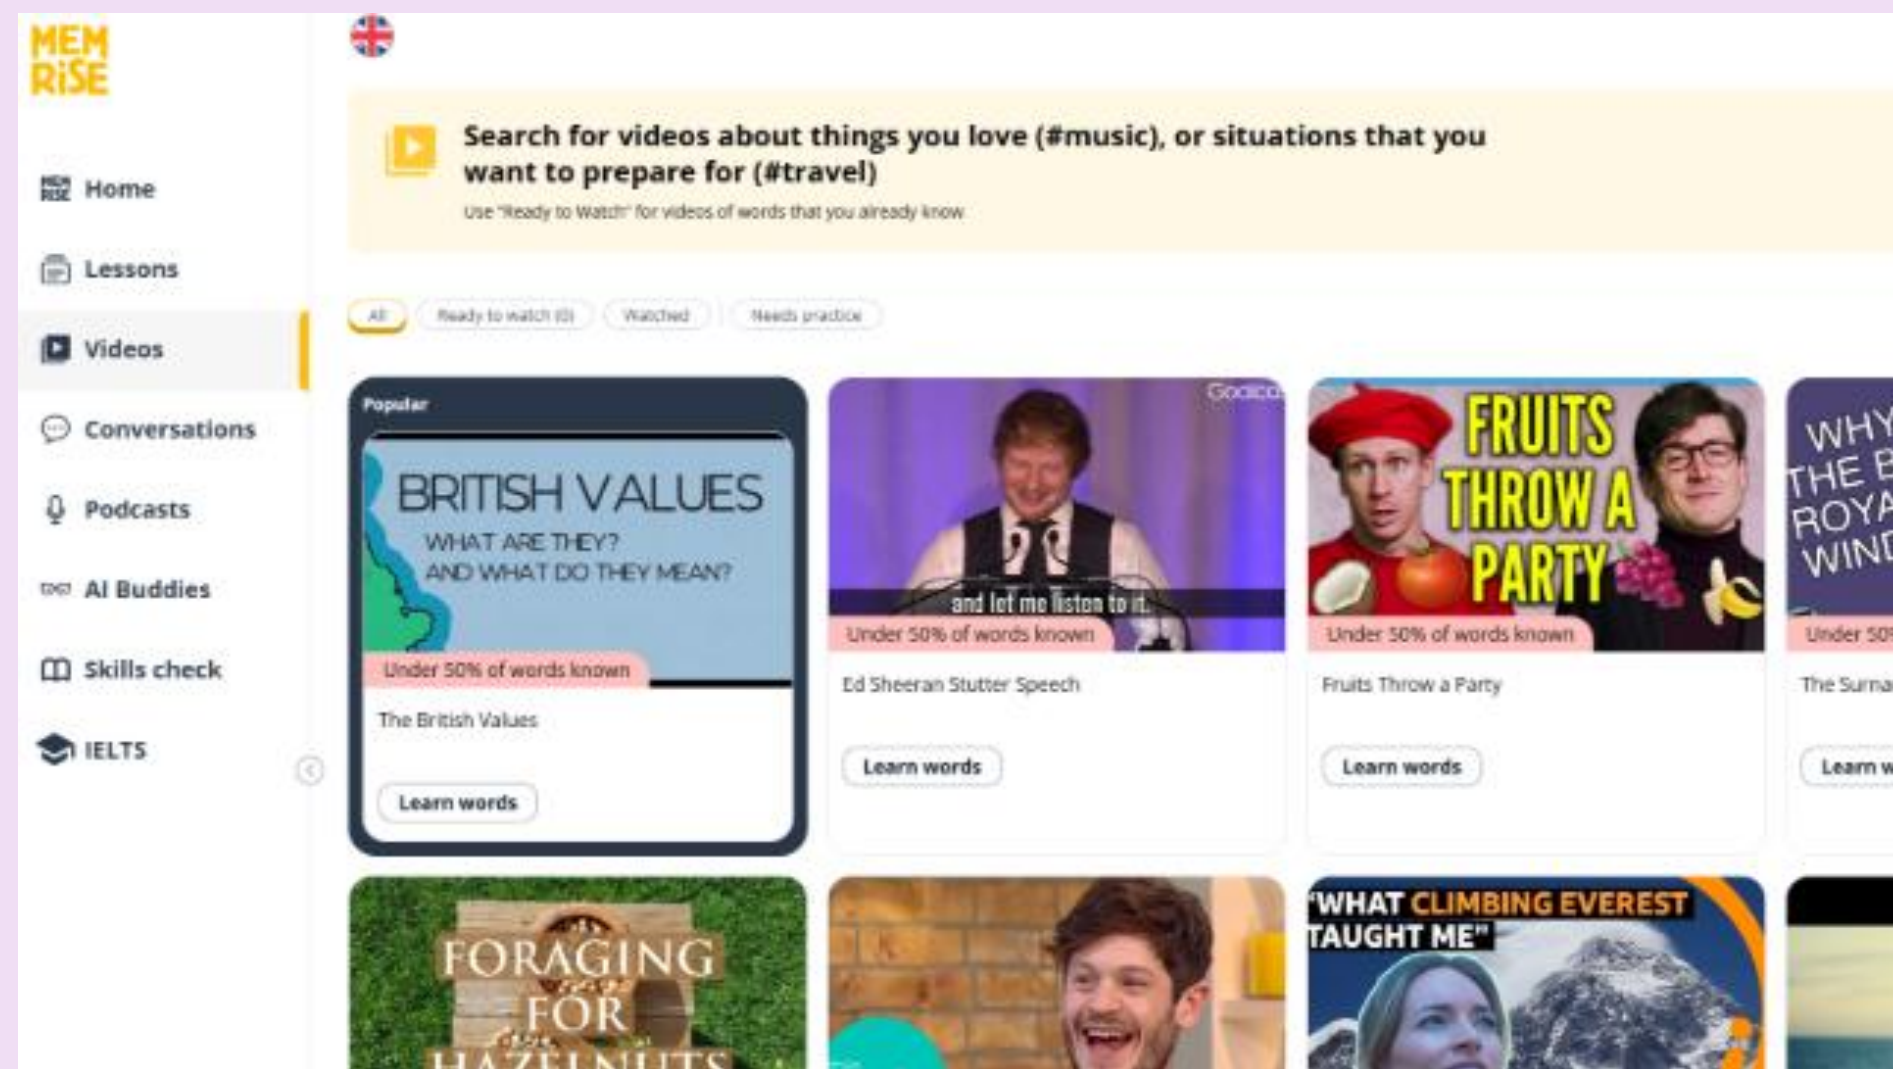

Gamified micro-learning

The platform uses levels, points, streaks, and progress tracking to motivate learners. Short tasks encourage frequent practice and habit formation.

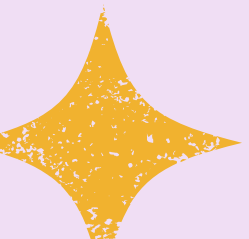

Adaptive repetition

Memrise adapts content based on learner performance. Words and phrases that cause difficulty appear more often, supporting long-term retention.

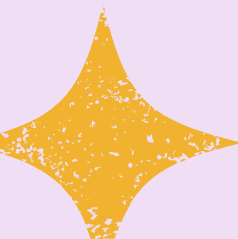

Learner interaction

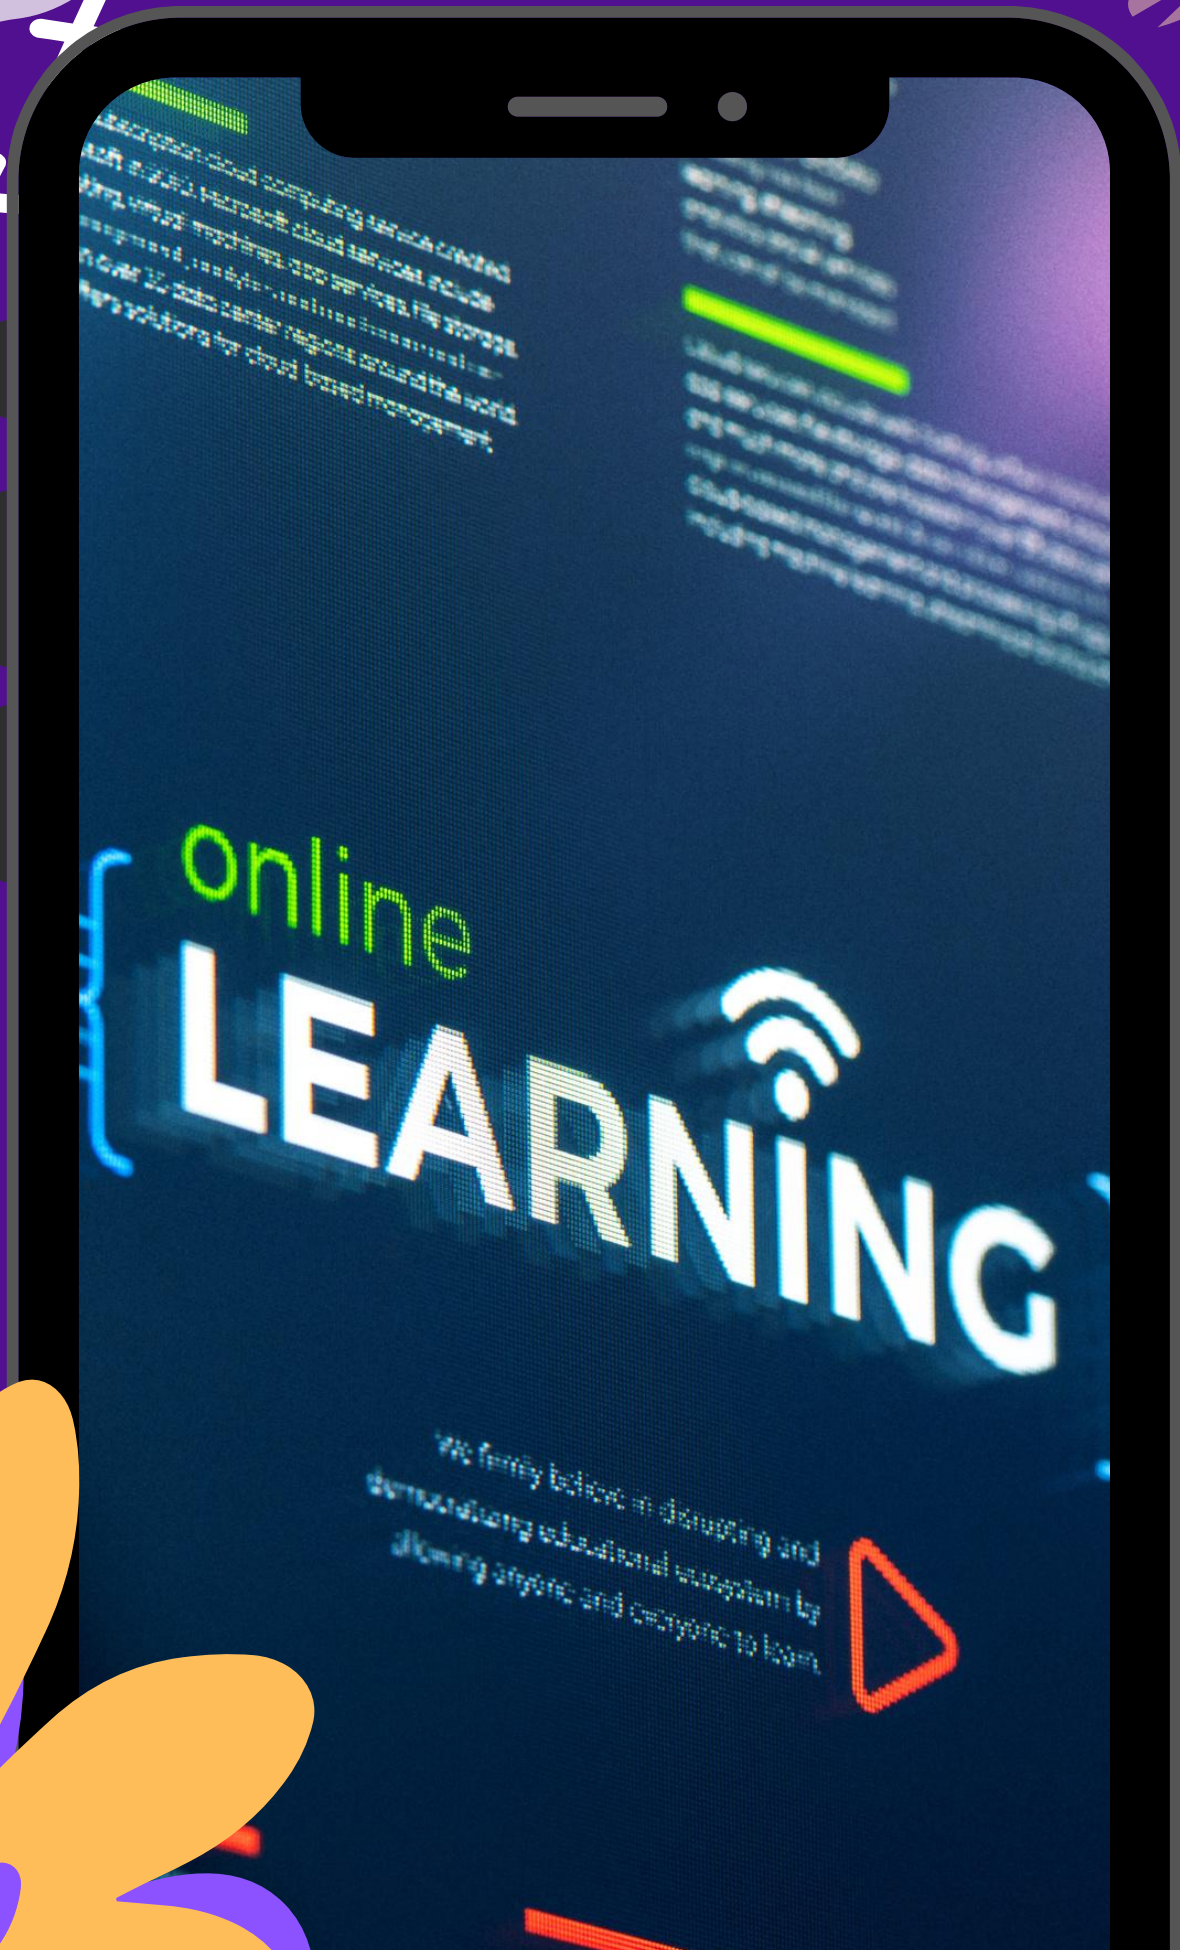

Learners practise vocabulary, listening, and pronunciation with immediate feedback. The low-risk, game-like format reduces learning anxiety.

Use in Teaching English as a Foreign Language

In Teaching English as a Foreign Language, Memrise is used as a supplementary self-study tool for vocabulary building, pronunciation practice, and spaced revision between classes in adult education.
