Učno okolje H5P

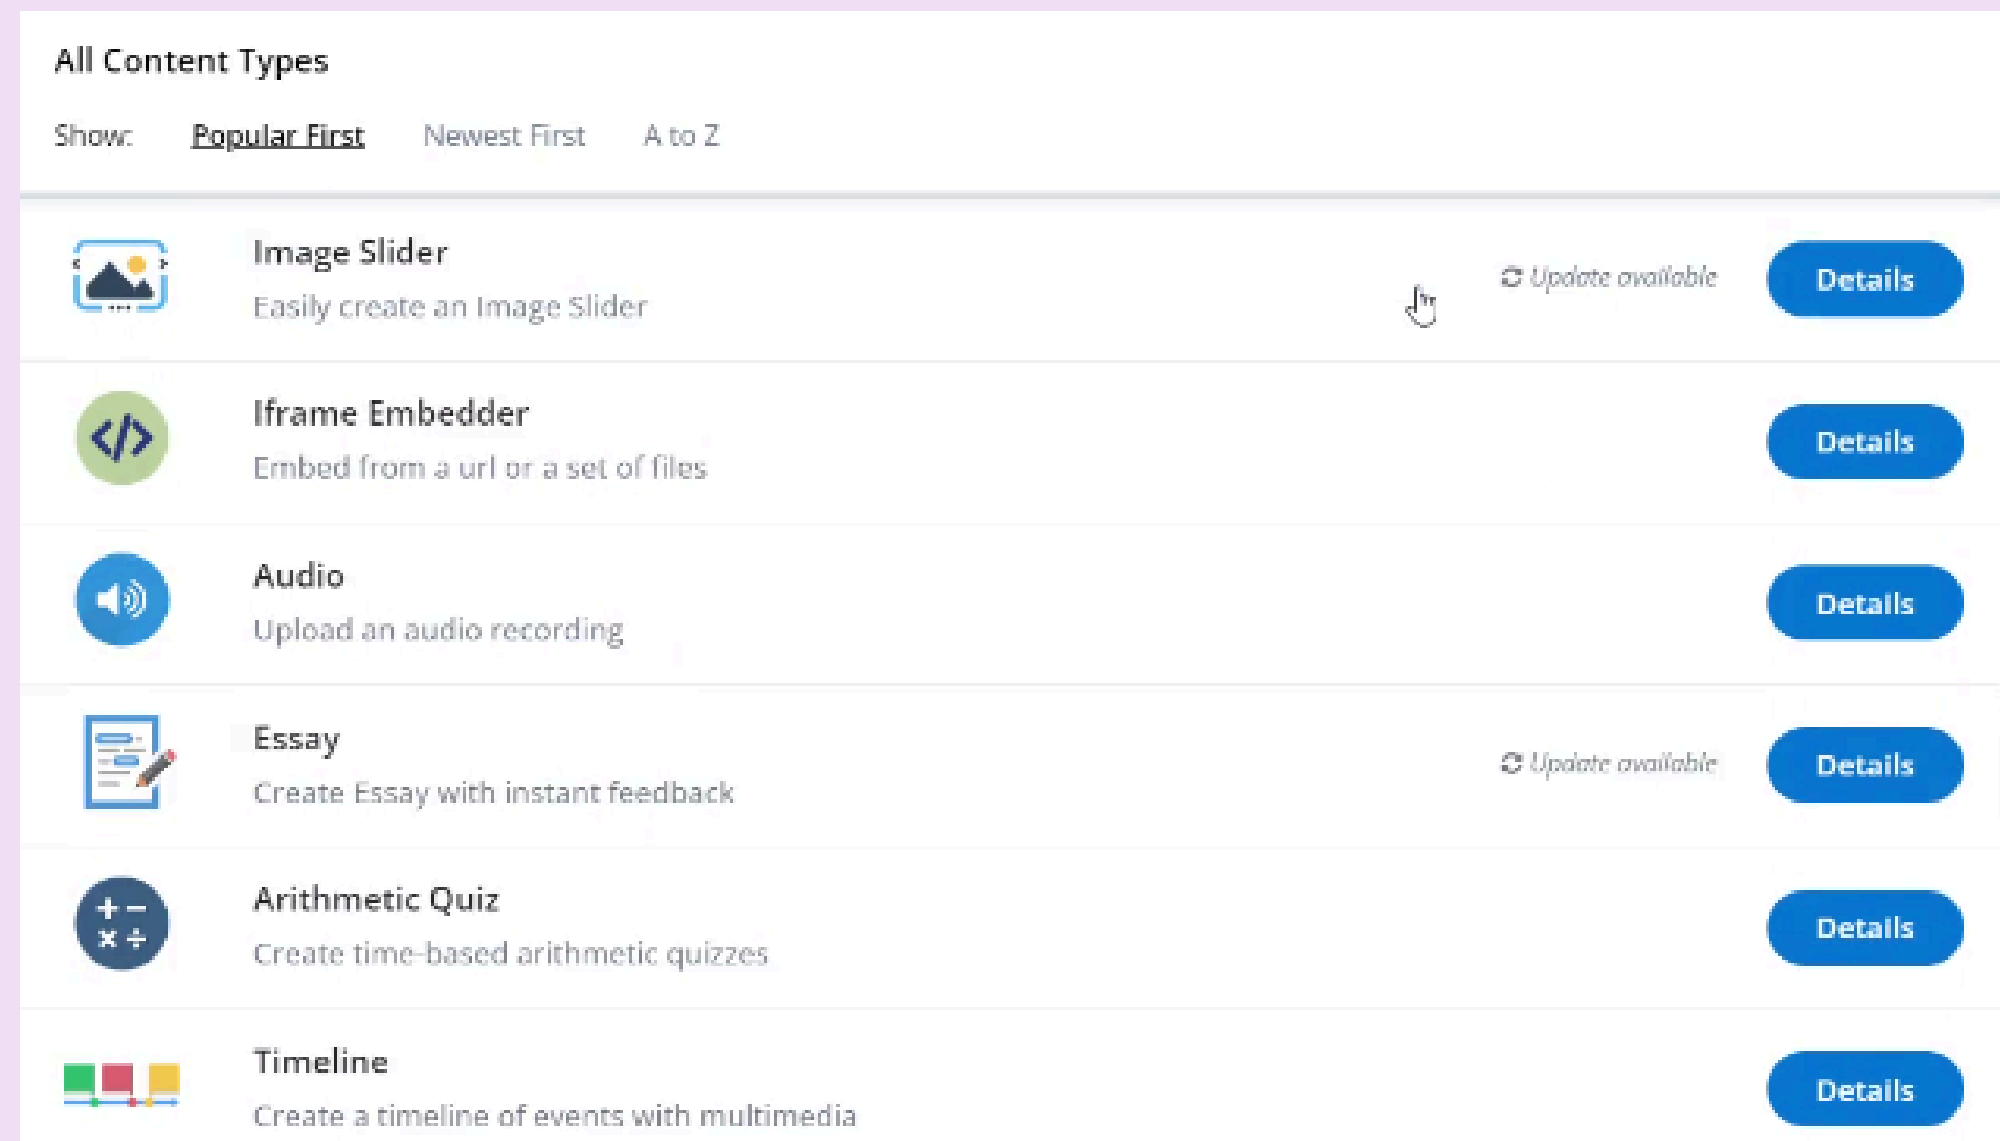

H5P se običajno uporablja znotraj spletnih strani ali sistemov za upravljanje učenja, ki podpirajo H5P.

Učenci do dejavnosti dostopajo neposredno prek spletne učne platforme.

Ustvarjanje interaktivne vsebine

Učitelji v H5P ustvarjajo vsebine z uporabo različnih tipov dejavnosti, kot so interaktivni videi, kvizi, predstavitve ter naloge povleci-in-spusti.

The screenshot displays the 'All Content Types' interface in H5P. At the top, there are sorting options: 'Show: Popular First', 'Newest First', and 'A to Z'. Below this, a list of content types is shown, each with an icon, a title, a brief description, and a 'Details' button. Some items also have an 'Update available' notification.

Content Type	Description	Update Available
Image Slider	Easily create an Image Slider	Yes
Iframe Embedder	Embed from a url or a set of files	No
Audio	Upload an audio recording	No
Essay	Create Essay with instant feedback	Yes
Arithmetic Quiz	Create time-based arithmetic quizzes	No
Timeline	Create a timeline of events with multimedia	No

Prilagodljivost vsebine

V H5P je vsebina zelo prilagodljiva. Učitelji lahko nastavijo povratne informacije, število poskusov in razvejanje ter dejavnosti ponovno uporabijo z uvozom in izvozom.

Edit **View**

Choose the correct sentence

He going to school every day.

He goes to school every day.

He go to school every day

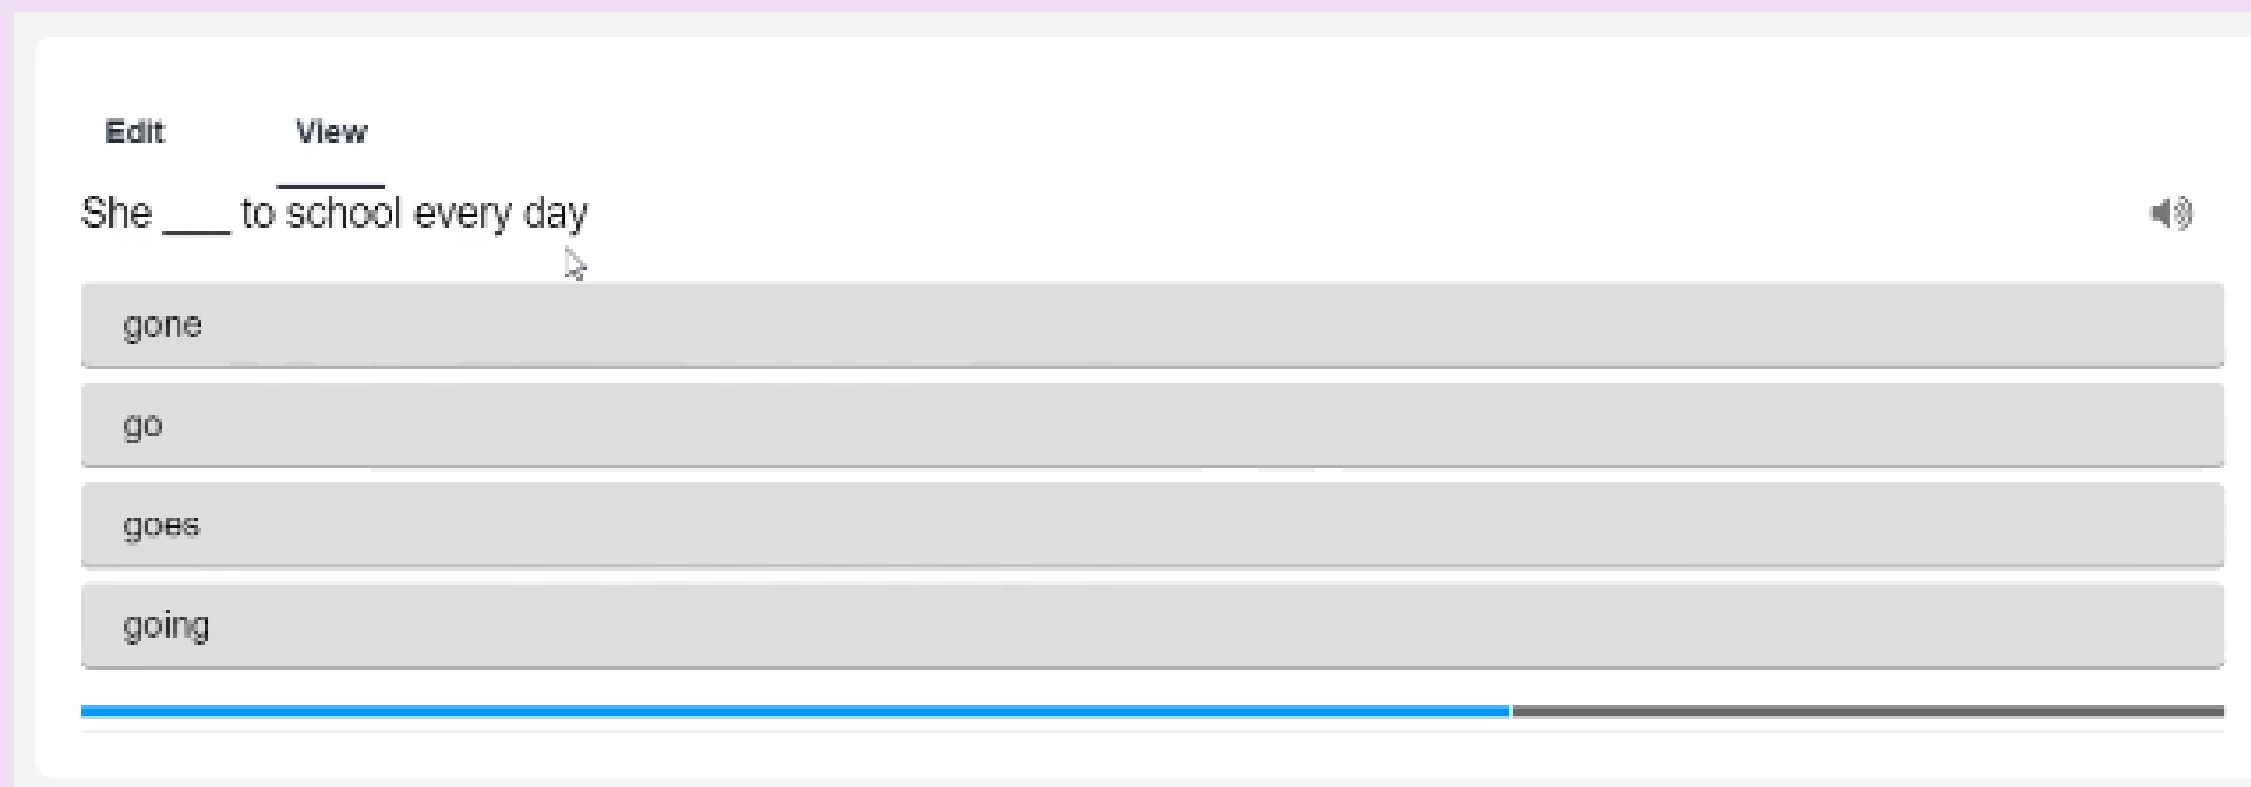

Check

Podpora jezikovnim spretnostim

H5P podpira vadbo poslušanja, branja, besedišča in slovnice.

Multimedijski elementi pomagajo učencem pri učenju angleščine na različne, raznolike načine.

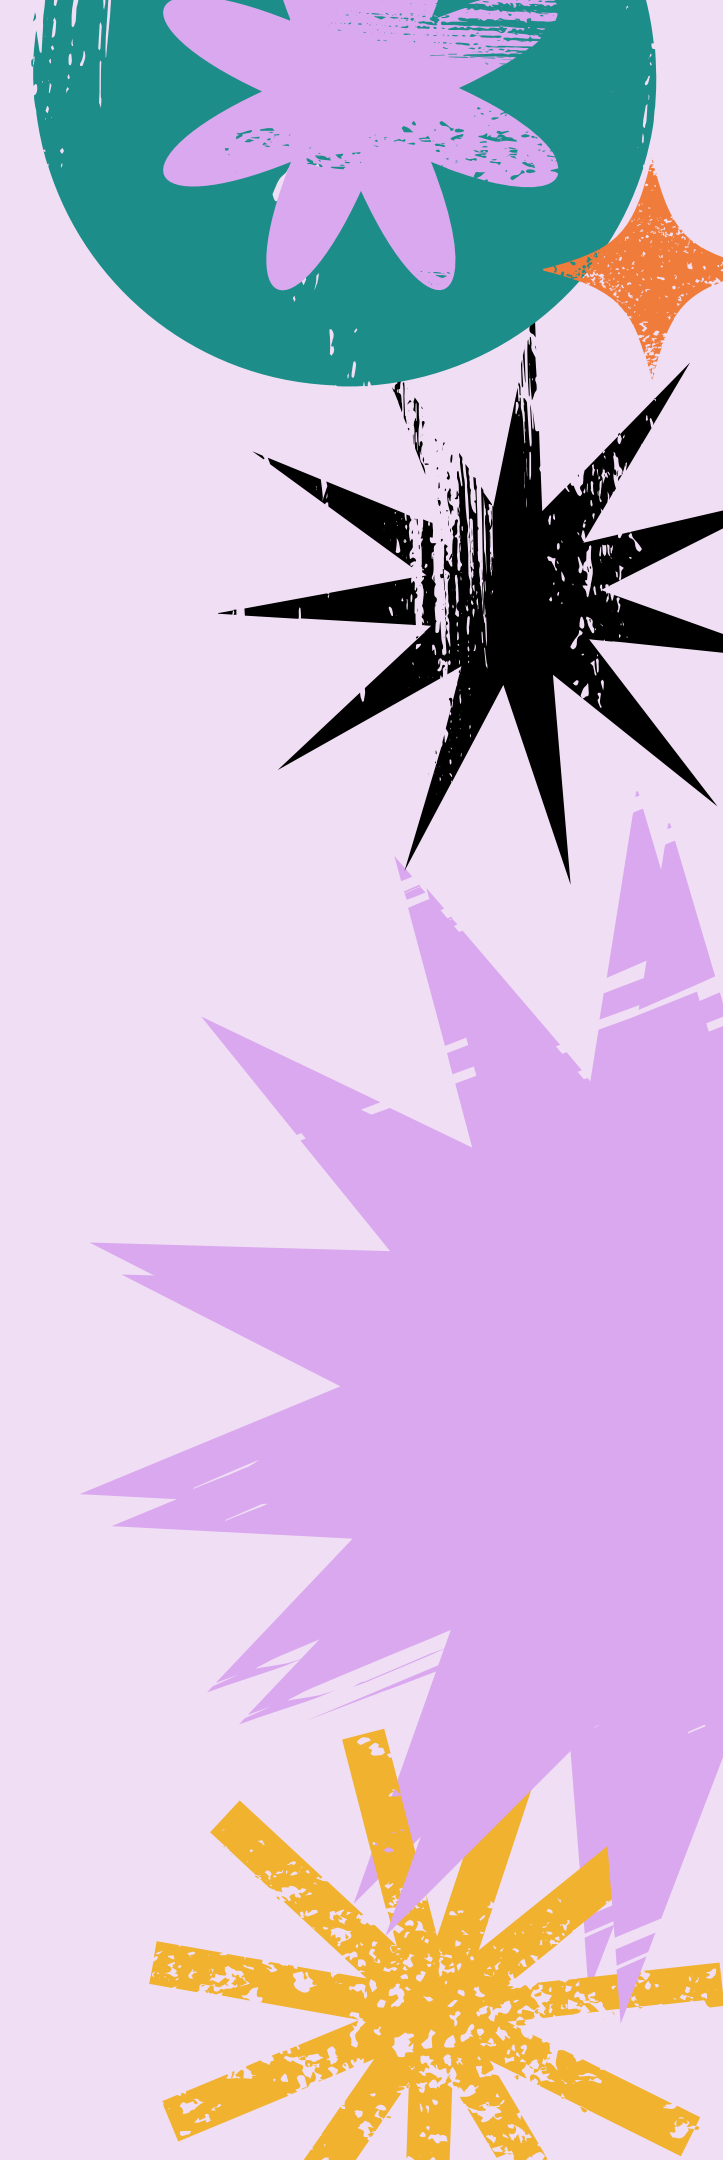

The screenshot shows an interactive exercise interface. At the top, there are two buttons: "Edit" and "View". Below them is a text prompt: "She ___ to school every day". To the right of the prompt is a speaker icon. Below the prompt are four horizontal input fields containing the words: "gone", "go", "goes", and "going". A blue progress bar is visible at the bottom of the interface.

Interakcija učencev

Učenci v H5P z vsebino sodelujejo v svojem tempu.

Takojšnje povratne informacije podpirajo samovrednotenje in spodbujajo aktivno sodelovanje.

Uporaba pri poučevanju angleščine kot tujega jezika

V poučevanju angleščine kot tujega jezika se H5P uporablja za ustvarjanje samostojnih učnih modulov, interaktivnih nalog poslušanja in digitalnih učnih aktivnosti, ki podpirajo odrasle učence v kombiniranem in spletnem izobraževanju.
